HOME APPLIANCES

Smart design for  
Modern lifestyles

# ABOUT COMPANY

Dysor is a trusted name in innovative air-cooling solutions delivering high-performance ceiling fans designed to bring comfort, style, and energy efficiency into every home. With a strong commitment to quality engineering and customer satisfaction, Dysor continues to redefine modern ceiling-fan technology through smart features, durable materials, and aesthetic designs.

At Dysor, we believe that better airflow brings better living. Our fans are crafted with precision-balanced blades, powerful copper motors, and advanced technologies that ensure silent operation, long life, and superior cooling even in challenging weather conditions. From elegant home interiors to commercial environments, our product range is built to complement every space while delivering unmatched performance.

## QUALITY & COMPLIANCE

- Designed in accordance with applicable ISI (BIS) standards\*
- Models compliant with Bureau of Energy Efficiency (BEE) norms, where applicable
- Energy-efficient motor design for reduced power consumption\*
- Electrical safety and performance tested as per Indian standards\*
- Durable materials for long-term reliability\*
- Environment-conscious manufacturing practices
